

MIXING GUIDELINES

Root Application:-

- 30g of Koleston Perfect + 30g of Welloxon 6% / 9% **or** 12%
- 15g of Colour Touch + 30g Colour Touch Developer 1.9% **or** 4% Developer

Full Head Application:-

- 60g of Koleston Perfect/Illumina + 60g Welloxon 6% / 9% **or** 12%
- 30g Colour Touch + 60g Colour Touch Developer 1.9% **or** 4% Developer

Foils:-

- Mix 15g of Koleston Perfect or Illumina at a time
- If mixing high lift tint, mix 7.5g at a time remembering to double the peroxide (15g)

**The guidelines above are based on an average head of hair.
If the hair is short or fine, decrease your amounts accordingly.
Likewise, if the hair is long and thick, increase the amount of mixture.**
